

DEPOSITSAFE SCHWERIN

*Safe construction type similar to VdS EN 3 regarding EN 1143-1
For the right insurance value please agree with your insurance company !!*

Security features:

Burglary security similar constructed as VdS 2450 EN 1143-1 class 3 and protection against light fires.

Body and door surrounding multiple-walled with high-quality special filling of concrete. The locks and bolts protect the contents massively against attempts of burglary and an additional emergency blocking system will be activated.

The armoured drawer has a height of 200 mm and is also filled with a special mixture of high-quality concrete. Telescopic runners make the opening and closing process very easily. The locks of the drawer and the safe are standardly high-security double-bit key locks including 2 keys each. Standardly prepared for the installation of a burglar alarm system (EMA) and its components.

- Maximum deposit-dimensions: 80 x 400 x 250 mm

Options:

-) Mechanical combination lock instead of double-bit key-lock
-) Electronic lock with electronic emergency opening = DFS S+ – (at the safe 90 mm protrusively)
-) The drawer can be build up also backsides, sideways or protruded.

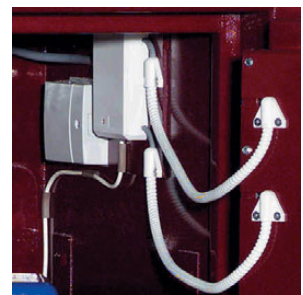

Electronic lock

EMA

Model	Outside dim. mm H x W x D	Inside dim. mm H x W x D	Weight kg
Schwerin-1	800 x 650 x 550 *	500 x 500 x 330	470
Schwerin-2	1000 x 650 x 550 *	700 x 500 x 330	565
Schwerin-3	1200 x 650 x 550 *	900 x 500 x 330	675
Schwerin-4	1400 x 650 x 550 *	1100 x 500 x 330	770

* + 60 mm for fittings

Cover plate of drawer

Telescopic runner

Movable closing plate

The movable closing plate and the cover plate of the drawer prevent access to the contents of the safe if its opened. If its closed the closing plate opens the deposit-space to the inside of the safe.
